

Online Learning Journals – ‘Family’

Your child will have an online Learning Journal which will be maintained by the allocated key worker. The online Learning Journal has been introduced to strengthen communication links between our families/carers. ‘Family’ is an online learning journal app which has been designed to show observations and photographs of your child to monitor their learning and development more efficiently. You will be provided with a password to access the information on your child.

This is a celebration of my time at The Kinsbourne Common Nursery and Pre-School which tells a story about my learning, my friends and all the experiences I have had.

On my learning journal, you will find photographs which capture moments of me at play. There will also be some of my creations and written records of significant moments adults have observed whilst I play.

Most photographs in the Learning Journal are accompanied by a short observation form. This form contains a number of abbreviations used to describe areas of the Early Years Curriculum:

- PSED – Personal, Social and Emotional Development
- CL – Communication and Language
- PD – Physical Development
- L – Literacy
- M – Mathematics
- UW – Understanding the World
- EAD – Expressive Arts and Design

These observations help to show how I am developing across all areas of learning as I grow, explore and discover new things.
